

Achieve More with the All-in-One Association Management Software

Help your association do big things

– even with a small staff

Just because you have a small staff doesn't mean you don't have big goals for your association. But how can you get more done when your association has limited time and resources?

All-in-one association management software (AMS) makes all the difference.

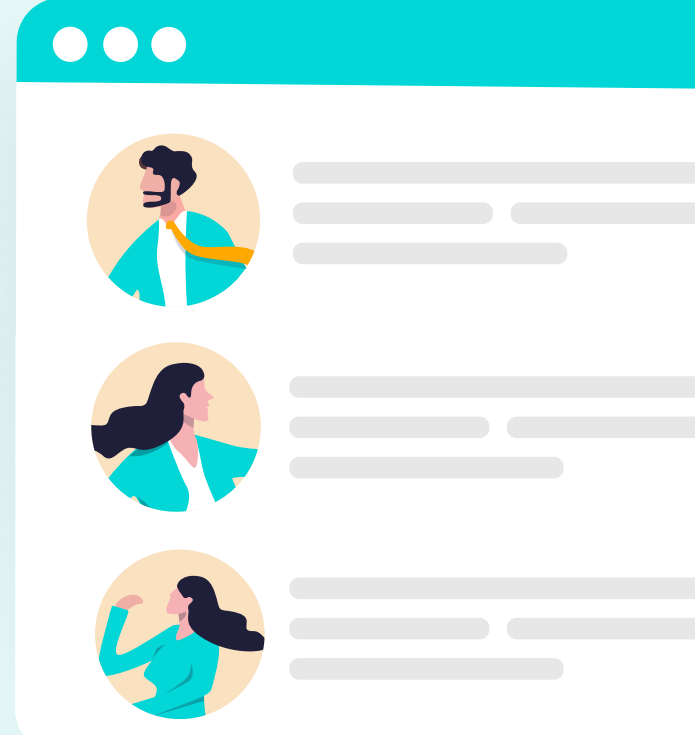

YourMembership AMS offers affordable, easy-to-use, all-in-one membership software to help small associations like yours achieve more. It keeps all of your member data in one secure place and includes the functionality you need to work more efficiently, generate revenue, and deliver a great member experience.

Here are nine ways that YourMembership AMS delivers everything your small association needs to get more done:

01 Membership management

Easily manage multi-tiered membership models and structure membership dues with configurable pricing based on membership level or member profile data. You can also manage chapter membership and track committee participation.

Lightbulb icon: YourMembership includes an online member portal so members can update their own information, saving staff time!

02 Website

With the built-in, easy-to-use drag-and-drop editor tool, quickly build web pages that work and look great on mobile devices. If you need an extra hand to take your website to the next level, YourMembership also offers expert web design services.

03 Email marketing

Build mobile-friendly emails using a drag-and-drop editor; then create email lists and target email content based on a variety of member properties. You can also automate certain email communications based on a scheduled send date or on members' actions.

Lightbulb icon: YourMembership includes SMS campaign functionality to help you reach members with quick, concise, and highly effective text messages.

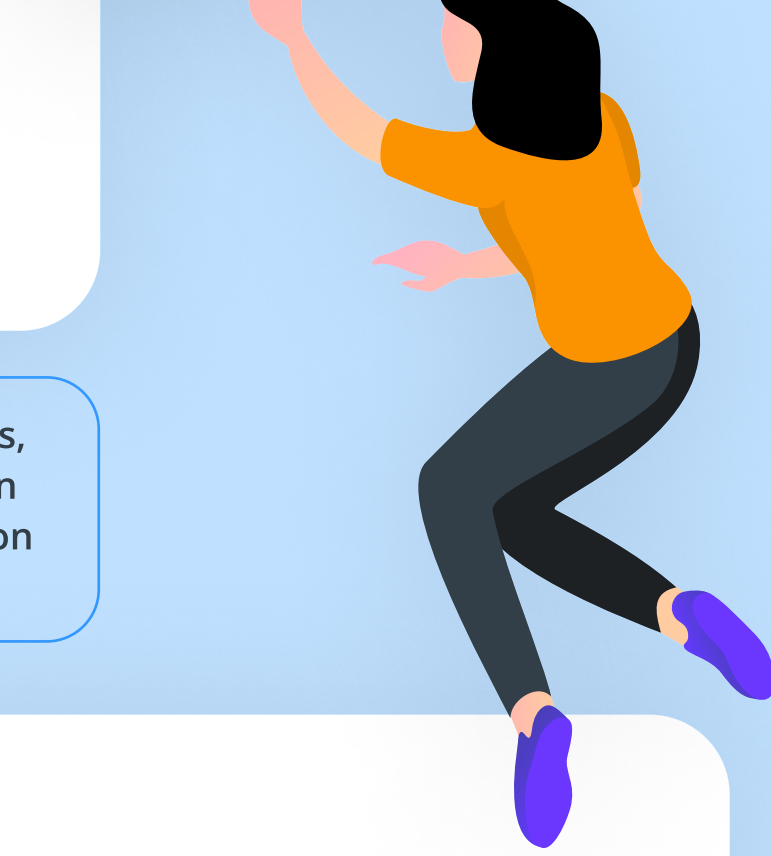

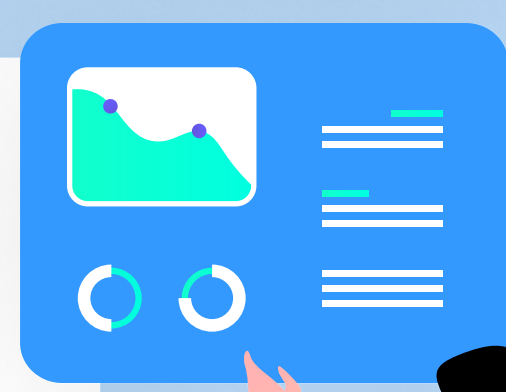

04 Online member community

Build a member community tailored to your organization that encourages networking among members and gives you insights into what's important to your members. Promote one-on-one connections, give members relevant content, and measure member engagement through built-in engagement scoring.

05 Event management

Create, host, and manage successful events using a wide range of functionality, like personalized registration paths, tailored event registrations with pricing tiers and coupon codes, automated event-related emails, a mobile app to engage attendees, and attendee badges that you can print directly from YourMembership.

Lightbulb icon: YourMembership also allows you to set event wait list limits, let potential attendees add themselves to the wait list when the limit is reached, and automatically invite the next person on your wait list when a space opens.

06 Online store

Set up an online store to sell everything from branded merchandise and event registrations to donations and other non-dues items – in a convenient and familiar online shopping environment.

07 Payment processing and accounting

Accept payments securely with integrated payment processing, and manage membership auto-renewals, installment payments, online store purchases, donations, and more. You can use separate bank accounts for different types of payments using the same form, and easily manage daily financial batches, invoices, and adjustments.

Lightbulb icon: YourMembership AMS offers an integration with QuickBooks Online to easily sync data and optimize financial operations.

08 Process automation

Use pre-built workflows to automate manual processes, such as sending membership renewal notice emails, making your entire staff more efficient – so you can focus more on attracting new members, creating a great member experience, and driving revenue.

09 Dashboards, reporting, and analytics

Use dashboards, reports, and advanced analytics for visibility into key metrics – including membership growth, retention rates, engagement scores, and membership trends – so you have the insights you need to make more informed business decisions.

Lightbulb icon: With YourMembership Data Analytics, you have access to high-quality interactive visual data, making it easy to see data trends and insights that help you identify new opportunities for growth.

BONUS TIP

Integration with other systems: An all-in-one application with the power of choice. As your association evolves, YourMembership AMS can grow with you. Continue managing your membership in one platform by integrating with solutions like HubSpot and MailChimp through YourMembership's partnership with Data Sangria by AMS.

Discover why YourMembership all-in-one AMS is the ideal solution for small and growing associations like yours.
